

Retailer Energy Productivity Scheme (REPS) - Activity Record

**Connecting a New or Existing Battery to an Approved Virtual Power Plant (VPP1);
Residential or Small Energy Consuming Customer (SECC) Only**

Activity No.
VPP1

Dear Customer,

Thank you for participating in the rebate program under South Australia's REPS VPP1 Activity. Eligible applicants receive a rebate to support clean energy adoption. Once your VPP is commissioned and registered, submit the completed form below.

Rebates are processed within 40 days of receiving a correctly completed and signed Activity Record subject to checking documents supplied.

If you have any questions or queries about your VPP1 claimed activity, please contact Demand Manager on (02) 9279 4704.

Please fill in this form completely then email with the other required evidence attached to reps@demandmanager.com.au for VPP1 rebate claim submission.

Section 1:

Customers Details

Transaction ID Number

Customer Name:

(Residents or Business)

ABN or ACN

☐ N/A as Residential

Address

(Battery Installation site)

South Australia Post Code

Section 3:

Customer Declaration Statement

I declare that:

- ☐ The above VPP1 activity claim has been undertaken at the address listed above and the information in this form is true and correct. To my best knowledge this activity has not previously been implemented at this address.
- ☐ I am aware that the above-mentioned activity will be counted in satisfaction of an obliged retailer's REPS Scheme obligations for the purpose of complying with the Electricity Act 1996 and Gas Act 1997.
- ☐ I agree to allow this information to be used by Demand Manager, the Essential Services Commission of South Australia (ESCOSA) or other necessary third parties for auditing, compliance, and other Scheme purposes.
- ☐ I have been informed about the warranty period of all installed Battery products
- ☐ Demand Manager shall not be held liable for any consequences or damages arising from any false, misleading, or incomplete information provided by you.
- ☐ I understand that I may be required to participate in a physical site audit and/or phone audit to verify the activity claim at the premises listed above by either ESCOSA, Demand Manager or authorised Electrical Retailer
- ☐ The original or a copy of the Retailer Energy Productivity Scheme Information Statement has been provided to me.
- ☐ The battery/s are intended for use in residential or small business premises in South Australia
- ☐ I have not previously claimed this activity under the SA REPS at the address where the battery is installed in the past three years
- ☐ The battery/s are connected to a VPP approved operator under the REPS in South Australia
- ☐ The battery/s have first been connected (onboarded) to an approved VPP during this calendar year
- ☐ The battery/s were installed by an accredited retailer and installer
- ☐ The rebate application is lodged using the date the VPP connection took place
- ☐ VPP connection must be to the battery in use at the address on the application

My battery system meets the above requirements.
